# Acknowledge

To our understanding, eProject is a simulation of real life problems where we have the opportunity to apply our academic knowledge in solving actual concerns from a ‘virtual client’. Programming is not only about typing series of code but also about transferring creative, commercial ideas into tangible products (i.e. websites) to be run on electronic devices. We now know that a finished and polished application requires:

- ✓ Comprehension of the problem.
- ✓ Teamwork and close communication.
- ✓ Deep research into give topic.
- ✓ Execution of concepts in a phased manner.
- ✓ Frequent testing of functions to improve user experience.
- ✓ Utilize mentor’s advice.

We are grateful to receive guidance from our professor as well as support from other classmates during the course of this project. We also thank eProject – India APTECH for your “demo” project and tracking our progress to keep us motivated at all times.

Pardon for our shortcomings as there are many other skills and knowledge we lack of, but we always tried our best and never gave up. Since we have gained more experience from this project, we will not stop learning in order to be more successful in the future.

Your Sincerely,

Team Group 02

# Synopsis

The Objective of this program is to demonstrate a front-end oriented project in which resembles a part of real life projects. Upon completion of this project, we will be able to construct a larger and more robust application.

The project requires us to apply our academic knowledge to create basic applications.

Hence, we would revisit past lessons before initiating.

This project is meant for students like us who have completed the module of HTML5/CSS/Javascript/AngularJS. These programs should be done in the Lab sessions with assistance of the faculty if required.

The website (in this project) is a made for a retail toddlers/babies' care retailer who is looking to expand their customer base via the Internet as well as to establish better connection with existing customers by providing news on products, discount events etc.

It is very essential for us that will have a clear understanding of the subject. We think we should go through the project and solve the assignments as per requirements given.

And get back *[eprojects@aptech.ac.in](mailto:eprojects@aptech.ac.in)* as the assigned schedule.

<b>Design Plan:</b> Tiny Tots	<b>Document Name:</b> Problem Definition	<b>SWD/Form:</b> No.01/PD/Ver1.0
<b>Effective Date:</b> 10-01-2022	<b>Version</b> 1.0	<b>Page No:</b> 1 of 32

## Problem Definition

During the period of 2019 and 2022, the world has been facing with a devastating pandemic called Covid-19. It changed everything that human society was accustomed to, from the way we communicated, how we worked, our daily routines, etc. Nowadays, a significant amount of people shops online to avoid direct contact with others, save the hassle of travelling to store, and enjoy better customer-oriented display that online stores offer. “TinyTots” Retail is a multi-brand kids’ outlet which houses all needs and occasions for children aged 0-12 years. Adapting to the uprising trend, they wish to expand their business online. Their customers will be able to browse necessary products, check on availability as well as compare its quality all within a mouse-click on their computers, all to serve best interests of their babies.

### Problem Statement:

1. Pages:
  - a. Home
  - b. About us
  - c. Products: Should be further categorized into
    - i. Baby care

	<b>Prepared by (Student)</b>	<b>Approved by (Faculty)</b>
	<b>Project Group No:</b> 02	LE THANH NHAN
<b>Signature</b>		
<b>Date</b>		

<b>Design Plan:</b> Tiny Tots	<b>Document Name:</b> Problem Definition	<b>SWD/Form:</b> No.01/PD/Ver1.0
<b>Effective Date:</b> 10-01-2022	<b>Version</b> 1.0	<b>Page No: 2 of 32</b>

- ii. Fashion
  - iii. Toys
  - iv. Wellness & hygiene
  - d. Brands
  - e. Stores
  - f. News
  - g. Become franchise: If someone wish to be partner with them, related information needs to be included here.
  - h. Resources: Contact us & FAQs should be included here.
2. The Home Page should be created making use of Sections with a suitable logo, the header section can be added which will show images of various product images.
  3. The site must contain the links to navigate through any category for the information.

<b>Effective Date:</b> 10-01-2022	<b>Version</b> 1.0	<b>Page No:</b> 3 of 32

4. The site should display a menu which will contain the options for brief introduction about the various products available, location of the shop and any other information if required.
5. The information should be categorized according to the brand names of the products like if a User wants to see only “funskool” products or any other company products then he/she can click on a Link/button/menu etc. and can see only that Brand products.
6. When a user selects any particular brand, a list of products for that brand will be displayed
7. A brief summary of features of the products should be displayed on the Web Page along with the picture but detailed Features should be stored in Individual Word documents which can be downloaded or viewed by the User who wishes to see the same.
8. The user should also be able to compare the various products of different as well as similar brands.
9. “Contact Us” will have the Address of the Company which should be displayed using GeoLocation API (eg. GoogleMaps) and the email address which when clicked will invoke the local mail client from where they can send an email.

<b>Effective Date:</b> 10-01-2022	<b>Version</b> 1.0	<b>Page No: 4 of 32</b>

## Customer Requirements Specifications

**User:**

**Input:**

- Search for types of products, brands
- Compare products
- Find store locations
- Look for FAQs
- Additional info. queries via email

**Process:**

- Check for product types, brands, detailed information
- Check store locations
- Identify users' FAQs
- Receive info queries and validate user's input

<b>Effective Date:</b> 10-01-2022	<b>Version</b> 1.0	<b>Page No: 5 of 32</b>

### Output:

- Display product types, brands availability
- Display store locations
- Send feedbacks, requests via webmaster's email

### Webmaster:

#### Input:

- Webmaster's login info
- Updates on company news, 'About us' page
- Products/brands information
- Respond to customers' feedbacks

#### Process:

- Check and validate login info
- Add/Edit/Delete updates on company news, 'About us' page
- Add/Edit/Delete information on selected products/brands

<b>Effective Date:</b> 10-01-2022	<b>Version</b> 1.0	<b>Page No: 6 of 32</b>

- Check and validate responses to feedbacks

### **Output:**

- Notify login successful/failed
- Notify add/edit/delete updates successful/failed
- Notify add/edit/delete selected products/brands successful/failed
- Notify responses to feedbacks sent successfully/failed

## Final checklist

Sr.No	Aspects Tested	Suggestion/ Remarks
1	Are all the users able to view the images and links?	
2	Have all the views, modules and controllers been properly integrated and is the site function as a single page application?	
3	Are the GUI content devoid of spelling mistakes?	
4	Is the application user-friendly?	
5	Is the Website launching correctly in all popular browsers?	
6	Are all the forms validated with proper criteria?	
7	Do all text links lead to the appropriate website?	
8	Do all image links lead to the appropriate website?	
9	Are all the images and links clearly visible on the page?	
10	Does the Web page work properly in all the tested browsers?	
11	Does the Web page take too long to be loaded fully?	
12	Is the navigation sequences correct through all the Web pages on the site?
